DIRECTOR: PROFESSOR G. J. V. NOSSAL, C.B.E., F.A.A.

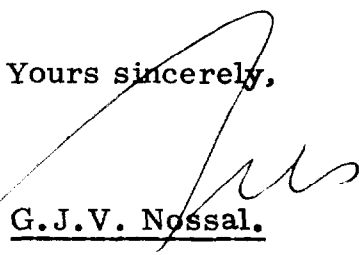

February 4th, 1975.

Dear Josh,

As you will see from the enclosed, the Commonwealth Serum Laboratories have not turned up very much of importance with regard to Beneckeia. Perhaps the two names given in Guli's memo are of some use. In the meantime, I am still hoping to hear from the Heron Island crowd.

All best wishes,

Yours sincerely,

  
G.J.V. Nossal.

School of Medicine,  
Stanford University,  
STANFORD, California 94305,  
U. S. A.

FEB 10 1975

Thanks Gus -

Do you think they caught the point about coral as a source of life-threatening wound-infections? This must have some import for military medicine too.

Yours,  
Josh.
